LOT OF NEW MATERIAL, INCLUDING:

- alternative ways of targeting the lumbar facet joints, as well as the sacroiliac joint (the latter includes use of the Cosman™ Bipolar Palisade technique and of the Neurotherm™ Simplicity probe).

- alternative ways of targeting the thoracic facet joints (using cool RF) and the thoracic dorsal root ganglia,

- alternative ways of targeting the cervical facet joints and the lateral atlanto-axial joint.

- pulsed radiofrequency of the pudendal and phrenic nerves.

- physics section has been rewritten and expanded.

- order at enrico@comedical.nl

The book contains contributions from some big names in interventional pain, viz., Prof. Alex Cahana & his team, Prof. Eric R. Cosman Sr., Dr. Eric R. Cosman Jr., Prof. Phil Finch, Dr. Olav Rohof and Prof. Miles Day.
INTERVENTIONAL PAIN
HANDS-ON CADAVER WORKSHOP AND SYMPOSIUM
MALTA
16/17 MARCH 2013

FACULTY
Dr. C. A. Gauci Consultant in Pain Medicine
MD FRCA FIPP FFPMRCA
Whipps Cross University Hospital, London, UK

Professor S. Erdine

Dept. of Algology, Faculty of Medicine
University of Istanbul,
Istanbul, Turkey

Dr. O. Rohof
MD FIPP
Pain Clinic, Maasland ziekenhuis,
Sittard, The Netherlands

Prof. L. Lou
MD FIPP
Medical Director, Pain Treatment Center,
Rush Hospital System, Meridian, Mississippi

Dr. M. Puylaert Pain Specialist
MD FIPP
Multidisciplinary Pain Centre,
Genk, Belgium

Dr. R. Reddy Consultant in Anaesthesia & Pain Medicine
MD FRCA FFPMRCA FIPP
Medway NHS Foundation Trust,
Gillingham, Kent, UK

Dr. M. Casha
MD, Msc, DESA
Pain Clinic, Mater Dei Hospital
Malta

Dr. A. Al Kaisey Consultant in Pain Medicine
MD FRCA FFPMRCA FIPP
St. Thomas’ Hospital, London, UK

Dr. E. Cosman Jr
PhD
Scientist, Boston, USA

Dr. M. Baloch Consultant in Pain Medicine
MRCP FRCA FFPMRCA
Frimley Park Hospital, Surrey, UK

THE WORKSHOP INCLUDES THE FOLLOWING:

- Three (x-ray) HANDS-ON CADAVER stations
- One (non x-ray) ANATOMY station
- One (non-xray) ULTRASOUND station
- No more than 5 attendees per work station

SPONSORS:
- Cosman Medical Inc., Epimed Inc, CoMedical,
Oakworks Medical, Boston SCI

PROCEDURES TO BE COVERED INCLUDE:

- Lumbar, Thoracic & Cervical RF Procedures
- Trigeminal & Sphenopalatine (P) /RF
- Ultrasound
- Spinal Cord Stimulation & Peripheral Nerve Stimulation

PRESENTATIONS

- Thoracic RF Procedures
- Spinal Cord Stimulation/ Peripheral Nerve Stimulation
- Trigeminal/Sphenopalatine RF
- The role of RF
- Ultrasound
- Cervical RF Procedures
- RF Procedures
- Physics of RF/PRF
- The Complications of Interventional Therapy
- Local blocks for cancer pain
